

Register

All residential buildings and houses must be registered and choose a waste service at Mise.

Buildings and houses can be registered by letter, e-mail, telephone or in person. Please have the following information available:

- Owner's name
- Invoicing address
- Building location
- Building description number
- Old house: previous owner's name and date of transfer
- New house: occupancy date

Houses that are not in use

Residential buildings that are empty must be reported to Mise. For example, if the building is under renovation or otherwise uninhabited, contact Mise for more information about the possibilities for reduced fees.

Tenants

Waste management is not the tenant's responsibility; it's the owner of the building. Ask the owner for a Mise card when you are moving in.

Waste management fee

Waste management is a part of the society's infrastructure with recycling stations, environmental collection points, recycling centers and waste bins. The waste management fee consists of both a basic fee and a variable fee.

The basic fee must be paid by the owner of every residential building and covers Mise's administration such as supervision, information, billing and records. The basic amount also finances recycling centers, recycling stations and management of recyclables and hazardous waste.

The variable amount of the waste management fee covers collecting, transport and waste handling. Current fees are available on Mise's website. For detailed information, please call our customer service.

Garbage coupons - Sopmärken

Combustible waste, bulky waste and furniture are disposed at recycling center after payment of a required fee. With prepaid garbage coupons, sopmärken it will take less time when you deliver waste at the recycling center. You can order sopmärken at www.mise.ax, at Mise's office or calling our customer service. Sopmärken can also be purchased at Mise ÅVC and Misebilen (only payments by card). Every sopmärke costs 5 €.

Waste management

Organized waste disposal

Means that the building has got one of Mise's waste services.

Guide to sorting waste

At Mises website you will find an updated guide on how to sort your waste. You can also get one from Mise's office at Fabrikskatan 8.

Mise card

Once you have registered your residential building at Mise, you will be issued a Mise card. If you rent out your building, the Mise card should be given to the tenant. The Mise card is the key to the recycling centers and stations. Remember to always bring your Mise card when you deliver waste.

If you have not got your Mise card or have lost it, please order a replacement card at Mise. If you are a tenant, contact your owner to give the card to you.

Waste management Services

Waste can be managed in different ways. The waste management system looks different depending on the location of the property.

Curbside collection

There are different kinds of waste bins with different degrees of sorting. Contact Mise for more information about available options. Apartment building always have curbside collection, contact the manager or the owner if you have question about the waste.

The services for curbside collection are MiseFour (a four-compartment bin for collection of combustible, biowaste, cardboard and plastic packaging) or MiseEight (2 bins with four compartments each), bin A is used for combustible, biowaste, cardboard and plastic packaging and bin B is used for metals, glass, paper and cardboard)

The bins are available in two sizes: 370 liters and 660 liters. Emptying intervals are every second week for the MiseFour. Intervals for MiseEight is for bin A every other week and bin B every four weeks. MiseEight-Plus in 660 liters bins is suitable for example small apartment buildings.

During a transition period 2020–2021, some households may have curbside collection of private entrepreneurs, depending on where they live. Contact customer services for up-to-date information.

Instead of garbage bins, Kökar and Sottunga have a collecting service for garbage bags. Contact Mise for more information.

Combustible waste to locked house

In the mainland, you can dispose waste at a common collection point and be connected to a locked house for disposal of combustible and organic waste. They are usually located beside a recycling station. Your Mise card serves as a key. The service is mainly for holiday residential but it is also a service for those households where the garbage truck cannot go. Contact Mise for more information.

Biowaste

Bio waste is handled through curbside collection or delivered to a locked house. If you want to use a compost in your own yard the compost container must be approved for bio waste. It must also be sealed and insulated to avoid attracting pests or smell bad. In Kökar and Sottunga it is mandatory to have your own compost.

Shared waste handling

Owners of buildings that produce less amount of waste can share waste bins with a neighbor. Contact Mise for more information.
